项目环境搭建

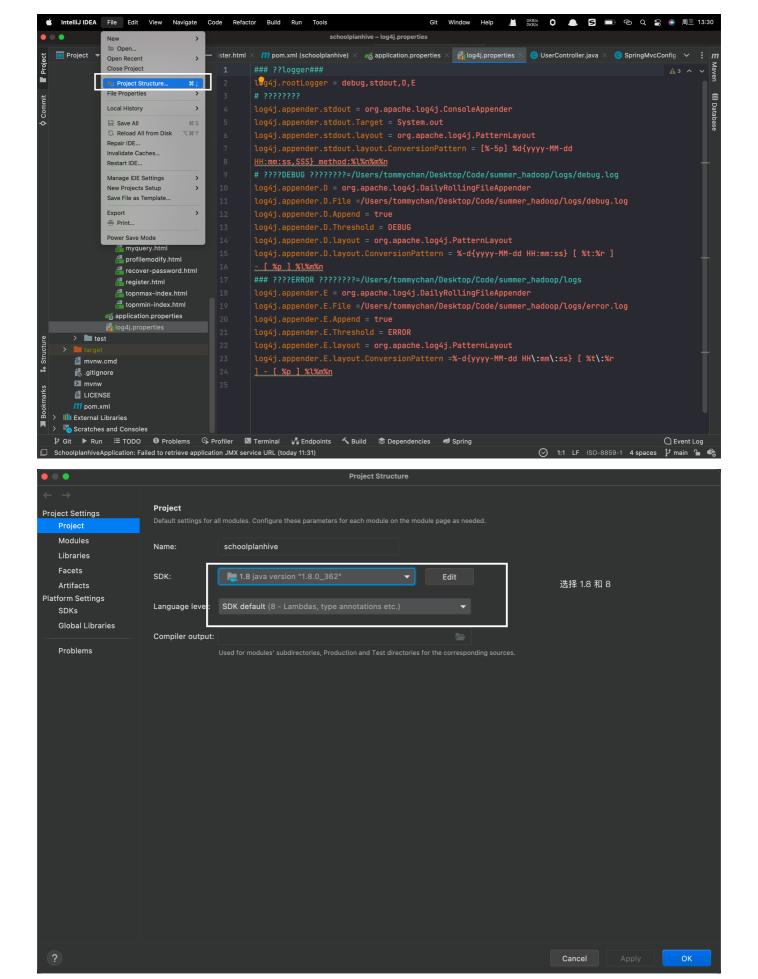

1. 数据库

- Mysql 8
- 使用压缩包下的 schoolplanDB.sql 初始化,可用navicat、datagrip等数据库管理工具,以navicat为例如下图导入

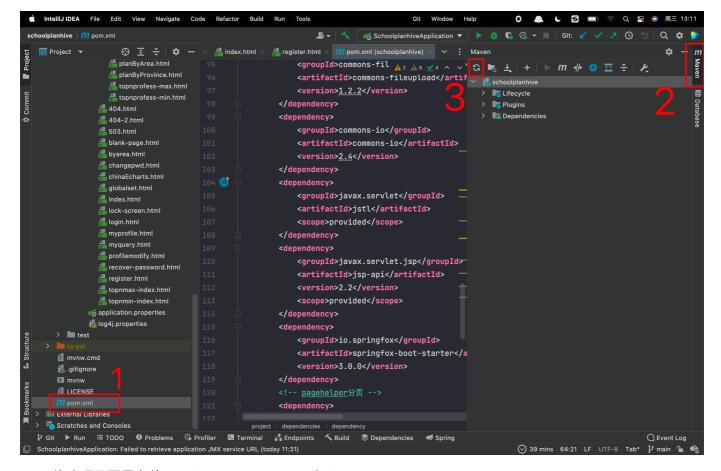

2. 运行前准备

- 集成开发环境: IDEA
- jdk 1.8 + springboot 2.7 (刷新MAVEN会自动导入相关依赖)
- 修改项目结构

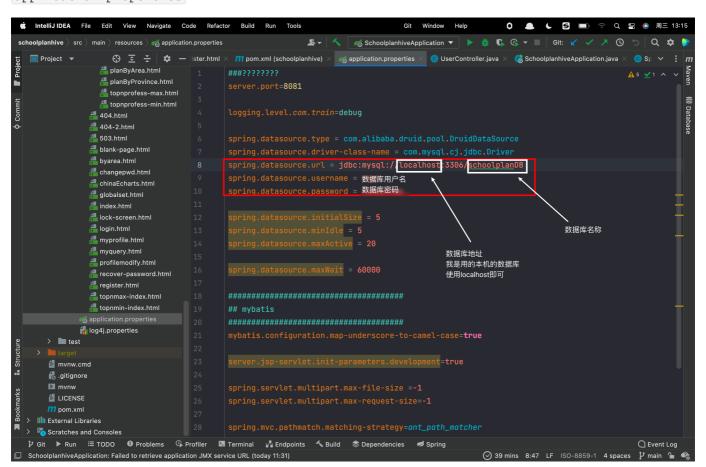

● Maven下载依赖

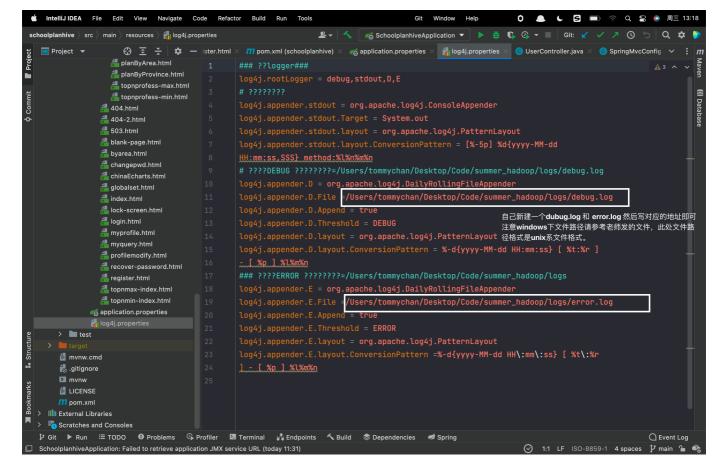

● 修改项目配置文件 application.properties 和 log4j.properties

application.properties

log4j.properties

- 修改完成后运行即可
- 登录页面 http://localhost:8081/user/toLogin
